Dedication

We of the 1961 Kawaco staff take pleasure in dedicating this year's annual to Mrs. Mary-Borden Vicker.

Not only has she served our student body as a teacher but also as a girls' advisor. Nothing has been too great a task for her if it was for the benefit of her students.

We owe her a debt of gratitude for the many hours she has so cheerfully and unselfishly spent chaperoning the Pep Club's activities and other school functions, never complaining when the girls grew noisy or a bus broke down.

We thank her for her time, effort, and unselfish thoughtfulness.

As the years go by, graduation from high school becomes an increasingly smaller step in one's total preparation for lite. If you terminate your formal education with high school graduation, you have probably gained only a fraction of the knowledge needed to compete at the top levels in this complicated world.

I strongly urge all of you who have built a sound educational foundation in high school to make every effort to extend your formal education. Your graduation from high school is an accomplishment of which you can be proud, as by this achievement you have shown qualities of perseverance and ability lacking in many of your former classmates who have dropped by the wayside.

I congratulate every member of the class of 1961 and wish you all well in whatever endeavor you choose to undertake.

There comes a time when it seems appropriate to do some stock taking, to review our past and try to peer a little into the future. CLASS OF '61, it would seem proper at this time to examine some of your past contributions so that you may chart your course for tomorrow. In charting your course, build upon what you have learned and avoid the pitfalls that you may encounter. Put into action the knowledge you have gained by becoming productive members of our society. Your KA-WACO has presented an excellent pictorial record of your school activities; and, as you continue your voyage, may **your "log"** record a very successful and happy life.

This year the Kawaco has as its underlying theme a ship's log. Our Alma Mater is the ship. Our administration and faculty are the ship's personnel; we, the students of Kalama High School, are the passengers. Graduation is the destination which the seniors have now reached through many stormy seas. Our voyage has been recorded here in the log of the good ship Kawaco, which will serve as a memory book for the 1960-61 school year.
